## Glendor's sample speed leveling guide. (Night Elf)

So you want to be a Night Elf? And you want to level as fast as you can? This short guide will help you finish the quests located in Shadowglen as quickly as possible. I've also included a map for referencing where the locations are for each quest. I created this simple guide to give you an idea of how the recommended Horde and Alliance speed leveling guides work.

Here's what I want you to do: Follow this little guide and don't deviate from the instructions! Just follow everything, step by step. It's mindless and quick, which is how speed leveling should be. We all want to be level 70, but none of us want to grind our way there, and with the proper guidebook you won't have to.

As a Night Elf, you will begin your life in Shadowglen. You will see an NPC with a question mark above his head. This is your first quest giver! Talk to him!

Step 1: Talk to Conservator Ilthallaine at 61, 45. Take the quest The Balance of Nature.

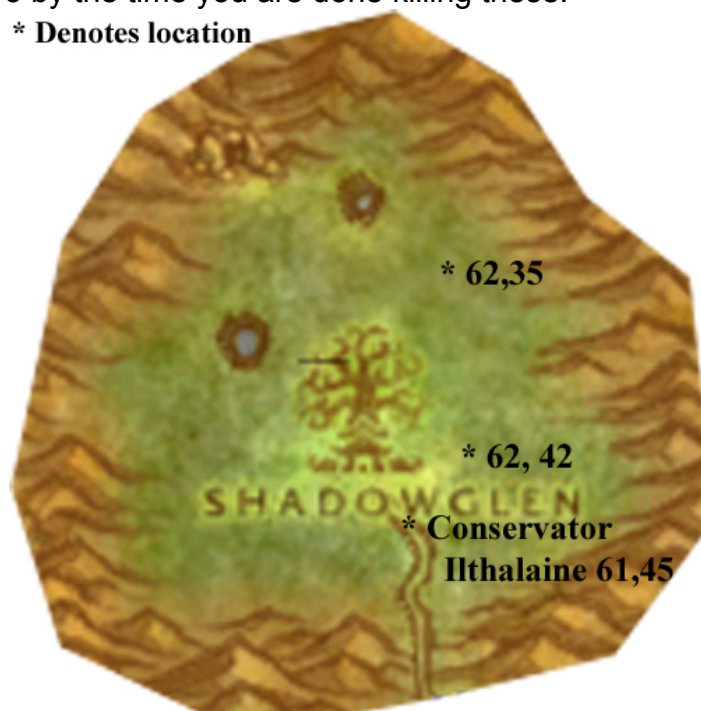

Step 2: Go to location 62, 42. Kill the young night sabers and the young thistle boars. You will reach **level 2** by the time you are finished killing.

Step 3: Return to Conservator Ilthallaine at 61, 45 and turn in the quest. You will receive 170 Experience and 250 Darnassus Reputation.

Step 4: Conservator Ilthallaine will offer you two quests; take them both: The Balance of Nature and a "Sigil" quest that is specific to your character class.

Step 5: Go to location 62, 35. Kill the mangy night sabers and thistle boars. You will reach **level 3** by the time you are done killing these.

Step 6: Head back towards Conservator Ilthallaine. While you are walking back to him, talk to Dirania Silvershine at 60, 41. Accept the quest A Good Friend.

Step 7: After you leave Dirania, stop and talk to Melithar Staghelm at 59, 42. Accept the quest The Woodland Protector.

Step 8: Step inside Aldrassil and talk to the Bowyer; Keina at 59, 40. Sell your loot and repair your gear. She is located within Aldrassil, right behind Melithar Staghelm.

Step 9: Go to Tarindrella at 57, 45 and turn in the quest for The Woodland Protector. You will get 75 Darnassus reputation for completing this.

Step 10: Tarindrella will offer you a quest, The Woodland Protector. Accept it.

Step 11: Go to 56, 45 and kill the Grell until you have 6 FEL MOSS.

Step 12: After you have collected your 6 Fel Moss, return to Tarindrella and turn the quest in. This will give you 250 experience and 520 reputation with Darnassus. This will probably put you into **level 4**.

Step 13: Read your "Sigil" quest, and then go talk to your respective trainer:

**Warrior:** Simple Sigil Quest: Alyissia is inside Aldrassil, lower level.

**Druid:** Verdant Sigil Quest: Mardant is at the top of Aldrassil, first room.

**Priest:** Hallowed Sigil Quest: Shanda is inside Aldrassil, lower level, 2<sup>nd</sup> floor.

**Hunter:** Etched Sigil Quest: Ayanna is at the top of Aldrassil, first room.

**Rogue:** Encrypted Sigil Quest: Frahun is inside Aldrassil, lower level.

When you speak with your trainer, will get 75 Darnassus reputation and 40 experience. Purchase any new talents that are available to you.

Step 14: Talk with the Bowyer again (Keina, 59, 40) and sell all your goodies and get repaired.

Step 15: Next, talk to Gilshalan Windwalker at 57, 41 and pickup the quest Webwood Venom.

Step 16: Go to Iverron at 54, 33 and turn in the quest A Good Friend. This will give you 150 Darnassus reputation and 270 experience.

Step 14: Iverron will now offer you a quest called A Friend in Need. Accept this quest.

Step 15: Kill the spiders in front of the cave at 56,31. Keep killing them until you have acquired 10 venom sacs. You can go inside the cave to kill them if you wish.

Step 19: She will offer you the quest, Iverron's Antidote. Accept it.

Step 20: Now go talk to the Bowyer again, (Keina at 59, 40). Sell all the stuff you've picked up, and repair your gear. Be careful not to sell your new weapon!

Step 21: You are now going to get the items Dirania requested for the quest Iverron's Antidote. You need to go behind Aldrassil to location 57, 39. While you are traveling to this location, look for the Hyacinth Mushrooms around the base of the Aldrassil building. You will also find them at the bottom of the tall trees. Pickup as many Mushrooms as you can; but don't stray off your path to the location behind Aldrassil.

Step 22: One you reach 57, 39 you can start collecting the Moonpetal Lilies.

Step 24: While you are traveling to kill the spider, look for more Hyacinth Mushrooms.

Step 25: Now that you have the Webwood Ichor, Hyacinth Mushrooms, and the Moonpetal Lilies, return to Dirania Silvershine at 60, 41 and turn in the quest, Iverron's Antidote. You will receive 250 Darnassus Reputation and 360 experience. You should either reach **level 5** by turning in this quest or at least be very close to leveling.

Step 26: Dirania will now prepare Ivverron's Antidote and then offer you the quest, Iverron's Antidote. Accept it.

Step 27: You now have 5 minutes to return to Ivverron and give him the antidote. This is plenty of time and you should have at least 2 minutes to spare by the time you reach him. Go talk to Ivverron again and turn in the quest, Iverron's Antidote. You will receive 350 Darnassus reputation and 450 experience.

Step 28: Now that you are level 5 and you have a new weapon, it's time to go into the spider cave. Go inside and make your first **right**, and then an immediate **left**. Kill spiders as you go, one at a time. When you reach the next intersection, go **left**. Continue along this passageway as it winds upward. Kill the spiders as you go.

Do you like knowing exactly where to go and who to talk to when questing?

This short leveling guide is similar to what you will be getting with each of the speed leveling guides listed below. The Alliance and Horde speed leveling guides will take your character all the way to level 70! Imagine how fast you will get your new toon to level 70. And you'll do so without the aggravation of not knowing **what** quest to take next, **who** to talk to, and **where** you need to go to complete it.

Without these guides, you will spend countless hours in aggravation trying to figure out what to do next. Be smart. Play efficiently. The hard work has already been done for you. Why reinvent the wheel when you can follow a proven path of success?
